Blue-Green Algae

- Public Health Notice was posted on August 16, 2018
- Obvious concerns - potential health issues, property value concerns, communications
- Is this the new normal?
- Lots of unknowns, but two fairly clear indicators - high temperatures and nutrient loads
 - We can't control temperatures
 - We have more control over nutrient loads..."buffers" at lakefront, maintaining natural landscape, controlling run-off, eliminating fertilizers
- "Closing of loop" in communications is a problem
 - Signs get posted if test results indicate that a blue-green algae bloom may occur
 - Re-testing is not done...no update provided if bloom does actually not occur

Around The Lake...

Updates from Armour Township

❖ Clarifications on Planning By-laws...

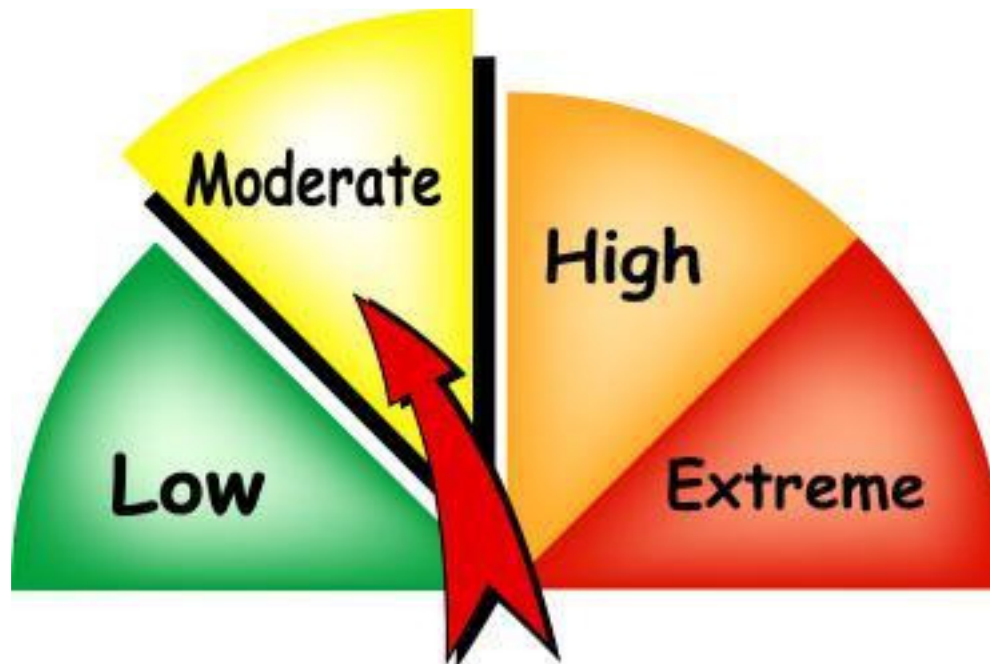

- Clarification to specify that only one septic system per lot is allowed (requires changes to both the By-Law and the Official Plan).
Wording was not previously clear and it potentially left the door open for old septic systems to be left on a property after a new structure / septic are completed.
- Specification that a "sleeping cabin / Bunkie" must be a separate structure in the Official Plan. Current definition is not fully clear on the fact that sleeping cabins have a limited size and they cannot be part of another existing structure (whereby the remainder of the structure is considered 'storage').
- Amendment to the Site Plan By-Law to specify that guest sleeping cabins and rural waterfront guest sleeping cabins are not included in the accessory uses, buildings and structures exemption in Section 1-e of the By-Law.

❖ 2019 Flooding - Katrina, Burk's Falls...

❖ Healthcare - Retiring Physicians...

❖ Almaguin Highlands Regional Economic Development

Conveniently located in the Almaguin Highlands region, Three Mile Lake is one of several lakes of the same name in Ontario. This particular Three Mile Lake is just outside the village of Burk's Falls in the Parry Sound District, 30 minutes north of Huntsville and 60 minutes south of North Bay....

This site includes local news and announcements, web cam, lake water quality information, a blog and photo gallery, and links to other sites of interest. Come back and visit us 'virtually' on a regular basis!

The Three Mile Lake Community association is a group of cottage owners, local residents and local businesses focused on the on-going enjoyment of our lake. We do this by:

- Promoting programs focused on maintaining the environment and sustaining water quality.
- Communicating items of interest to permanent and seasonal residents.
- Protecting the interests of the lake, the community and its residents.
- Providing a sense of community through fundraisers and social events.
- Being a responsible part of the broader community.

The Three Mile Lake Community Club web site has been developed strictly for the enjoyment of members of the TMLCC, and is maintained purely on a volunteer basis. While all attempts are made to produce accurate information, the TMLCC accepts no liability for errors or omissions with respect to information provided on this site or on any linked site herein. If you note any errors on this site, please email your concerns to info@3milelake.org.
